PARTNERSHIP GUIDE

MEANINGFUL EXPERIENCES.
BEAUTIFUL MEMORIES.
LASTING IMPACT.

Who We Are

At Blackborg Butterfly Sanctuary, we believe the most memorable experiences are often the simplest.

A butterfly taking flight.

A moment of wonder.

A memory shared.

Through thoughtfully curated butterfly experiences, Blackborg brings beauty, connection, and meaning to weddings, celebrations, memorials, and community gatherings throughout Southern California.

From elegant butterfly releases to immersive butterfly conservatories, every experience is designed to leave a lasting impression.

Our mission is simple:

To inspire wonder through the beauty of butterflies.

Butterfly Releases

Elegant. Meaningful. Unforgettable.

There are few moments as breathtaking as watching butterflies take flight.

Blackborg butterfly releases transform ordinary gatherings into extraordinary experiences, creating moments of beauty, symbolism, and connection that guests remember long after an event has ended.

Step Into The World Of Butterflies

Imagine entering a space where butterflies flutter freely among flowers, pollinator plants, caterpillars, and chrysalides.

A space where guests slow down, observe, learn, and reconnect with nature.

The Blackborg Butterfly Conservatory Experience transforms ordinary spaces into living butterfly habitats filled with beauty, discovery, and meaningful interaction.

Guests do not simply learn about butterflies.

They step into their world.

Designed for children, families, adults, and seniors alike, Blackborg Experiences create meaningful moments that inspire curiosity, connection, and appreciation for the natural world.

Why Butterfly Experiences Stand Out

A Unique Experience Your Guests Will Remember

In a world filled with digital distractions and fast-paced schedules, people are increasingly seeking authentic experiences that create genuine connection.

Butterflies naturally invite people to pause, observe, and experience wonder. Unlike traditional event elements that simply decorate a space, butterfly experiences create genuine interaction, emotional connection, and lasting memories.

Guests photograph them.

Children are captivated by them.

Families gather around them.

Conversations naturally begin around them.

Whether incorporated into a wedding, celebration of life, community event, festival, or private gathering, butterfly experiences offer something increasingly rare: ***A moment of wonder.***

The result is an experience that feels memorable, meaningful, and unlike anything guests encounter at a typical event.
